About Bayside Optical

Bayside Optical has been providing eye care to the Jervis Bay and St Georges basin community for over 30 years. It has been trading as Bayside Optical for 6 years and is respected by the community as a genuine and valued local service. We are supported by Provision, Australia's largest network of truly independent optometrists.

What does our independence mean to us?

Our independence allows us to focus on what's important to the patient both clinically and in our product offering. We carry an exciting offering of frames including Anne & Valentin, Res/Rei, ProDesign, Maui Jim, Zeal and Oakley, and we don't cut corners with lens quality. We cater to the active coastal community with prescription sports eyewear including dive masks.
